 drupal.org/u/baltowen

I'm a Drupal/WordPress developer. I interact with different platforms daily to do my work, such as Platform.sh, Bitbucket, Gitlab, Atlassian, Jira, etc. In addition, I have acquired significant project management experience that allowed me to understand the web development cycle. I have had the pleasure of contributing my project management and web development skills to my team to deliver a project that the client is satisfied with.

I'm excited to explore opportunities where I can leverage my experience.

EDUCATION BACKGROUND

Universidad Nacional de Ingeniería (2008-2012)

BS, Industrial Engineer

CERTIFICATIONS

Shecodes camp

Frontend Developer

SPEAKING ENGAGEMENTS
